

Hey There Jude

Verse1

Hey There Jude got up feeling blue
And I just wanted to talk to you
Those sad songs I wrote did not make it better
So I sat myself down to write you this letter

Verse 2

My Darling Jude this is how I will start
gonna tell you'll always be deep in my heart
I want you to know that I'm doing okay
Just taking this thing one day after one day

Verse 3

Our sons they carry you in all that they do
You gave them the love the love to see them through
I see much of you in them in so many ways
As they MAKE their way through motherless days

Verse4

Your girls they are lovely and oh so pretty
They're quick to smile, they're clever and they're witty
In their faces I see traces of you
And we make sure they know all about you

SOLO

Verse5

Went out with friends the other day
A table for five I heard them say
But it hit me hit me right out of the blue
Cos I still count me and you as two

Verse6

So this will make you laugh Hey I got a tattoo
I'm branded now and it makes me feel closer to you
It's a simple heart with your name above
A permanent marker for our love

Verse7

Remember how I cried on our wedding day
As I said the sacred vows that all couples say
On my little finger I wear your wedding band
As I remember the good times that we had

Verse8

I sealed your letter with a loving kiss
it's tearstained I hope you don't mind about this
I lay it down gently on the early morning dew
For the angels to find and bring it back to you
