

Jealously

Verse1

Sitting alone in a half empty bar
The singer is singing and playing guitar
The seat next to me is empty once more
As couple by couple walk in through the door

Verse2

Now I know they aint doing it deliberately
But something 'bout this scene is troubling me
Its just lovers in love but its something I cant stand
As he gets the bill and they leave hand in hand

Chorus

This aint a great night for me
Seems everyone is with their baby but me
It's a sin I know but I just don't like what I see
Its an ugly thing and its called jealousy

Bridge

I stand on the stage and look out at the crowd
The music **stops** and my head is bowed
Down my face the tears begin to stream
This ones for you babe the lady of my dreams

Verse 3

The night is over people leave the bar
I load my guitar into my car
I drive out into the deepest darkest night
To a home missing you and that just don't feel right

Chorus to end

That wasn't a great night for me
Seems everyone is leaving with their baby but me
It's a sin I know but I don't like what I see
Its an ugly thing and its called jealousy
