

Lonely Town

I feel like a loser cos I lost it all
Since she left me I can't stand tall
I'm so lonely I just sit and cry
And I keep asking is why

Why did she get sick on that summers day?
And she left us just after New Years Day
But I promise to carry her with me
And tell her all about what she can't see

Chorus

I draw the blinds I call her name
I make our bed I do the same
I get dressed and put on a smile
Good Morning Lonely Town been staying here a while

Bridge

I rolled the dice and it came up snakes eyes
I turned the card and I didn't win the prize
I bet red but it landed on black
I'm a losing gambler who can't win her back

I panned the river and I found gold
Her smile and laughter was something to behold
I look to the sky I see her star shining bright
And forever more it will be my guiding light

Chorus to End

I drive our car I call her name
I wash my clothes I do the same
I get dressed and put on a smile
Good Morning Lonely Town been staying here a while
Good Morning Lonely Town been staying here a while
