

For One Last Time

You slyly made your way into our lives
And separated a good man from his wife
And with all your devious plans and schemes
You stole my mans hopes and dreams.... So

Chorus

Come home to me lover for one last time
And let me feel your body close to mine
Let me love you tender and long
And stay with me where you belong
For one last timefor one last time

Verse2

I wonder if you are happy now
You made my man break his solemn vow
To stay with me for better or worse
When you planted your deadly curse.. So

Chorus

Come home to me lover for one last time
And let me feel your body close to mine
Let me love you tender and long
And stay with me where you belong
For one last timefor one last time

Bridge

Bring it on he said with his kindly eyes
Bring it on he said beneath the darkest skies
Bring in on he said despite his aching head
Bring it on he said as I took him one last time to bed

Verse3

But every curse must be met with some fight
That through the darkness you can find some light
So I put my arms around my family and friends
And I am sustained by a love that never ends ... So

Chorus to end

Come home to me lover for one last time
And let me feel your body close to mine
Let me love you tender and long
And stay with me where you belong
For one last timefor one last time
For one last timefor one last time
For one last timefor one last time
